CATERING

The Kitchen For Exploring Foods

MISSION STATEMENT

The purpose of the Virginia Robinson Gardens is to preserve and promote the historically significant first estate of Beverly Hills for the education and enjoyment of the general public.

Recently, we have increased our outreach to school children in the Los Angeles Unified School District. Each year our children's program enriches the lives of elementary students through hands on learning about plants, health and well being. We also offer educational lectures, botanical illustration and gardening classes for the general public.
